

NEPCON FORUM 2018

“Smart Electronics: Manufacturing the Future of Thailand 4.0”

Wednesday, 9 May 2018 at 13.00-15.30 hrs.

At U-Thong 2 Meeting Room, Classic Kameo Hotel, Ayutthaya, Thailand

Smart electronics is an important goal in transforming the structure of electric and electronics manufacturing industry towards the age of 4.0 as per the government’s initiatives. These will be expedited through innovation and application of modern technologies, as well as human resource development and support for manufacturers.

Accordingly, Reed Tradex and Electronic & Computer Employers’ Association (ECEA) cooperatively conduct NEPCON Forum 2018 under the theme **“Smart Electronics: Manufacturing the Future of Thailand 4.0”** which will serve an opportunity for delegates to learn about the transformation of electronics manufacturing towards industry 4.0, investment in technologies, how to sharpen competitiveness and raise the bar of productivity through innovation as well as information regarding the government’s strategies.

At NEPCON Forum 2018, attendees will receive the most up-to-date information, along with the opportunity to voice, debate and share know-hows with influential business leaders from different organizations. Also, the opportunities to expand and explore new business relationships are open for all participants.

Remarks:

- Seminar will be conducted in Thai
- FREE session, limited seats available, pre-registration required
