

NEPCON Forum 2019

“Enabling Connectivity and Green Productivity for Electronics Manufacturing”

Co-organized by Electronic & Computer Employers’ Association and Reed Tradex Co., Ltd.

Wednesday, 8 May 2019 at 13.00-15.30 hrs.

At U-Thong 2 Meeting Room, Classic Kameo Hotel, Ayutthaya, Thailand

In the last 4 years that Smart Electronics Industry has been promoted to be one of the main target industry of the country as known as First S-Curve which drives the economy for the future according to government strategies. This is the result to the changes in manufacturing sector in terms of application of technology including the human development to be consist of the aforesaid changes. How the future of Thai electronics industry move forward? Guidelines for the development of technological and innovation links in the Thai electronics industry and how is the development and management of sustainable manufacturing with environmental friendly really done? It is also a question that many of you are interested in.

Accordingly, Reed Tradex and Electronic & Computer Employers’ Association (ECEA) cooperatively conduct NEPCON Forum 2019 under the theme “**Enabling Connectivity and Green Productivity for Electronics Manufacturing**” which will serve an opportunity for delegates to learn about the current situation of electronics industry and its future, also encouraging the exchange of knowledge and create a network of people in the electronics industry. The seminar will cover the content and important issues as follows.

- Development of technological connections (Connectivity) and manufacturing applications in AI, IoT/IloT, Industrial Robots (IR)/ Service Robots (SR), Big Data, and Data Analytics
- Increasing production efficiency (Productivity) and the labor potential of the electrical and electronic industry in accordance with the government's economic drive in order to raise the competitiveness of the country
- Future demand for electronic products and equipment
- Investment promotion policy and supporting the Thai electronics and electrical industry
- Factory management, reducing waste in production process and being environmentally friendly

Target Delegate :

- Executives, entrepreneurs, business owners, and businessmen in the electrical and electronic industry
- Industrialist, factory manager, production manager, engineer, programmer, and technician

“Enabling Connectivity and Green Productivity for Electronics Manufacturing”

Co-organized by Electronic & Computer Employers’ Association and Reed Tradex Co., Ltd.
Wednesday, 8 May 2019 at 13.00-15.30 hrs.

At U-Thong 2 Meeting Room, Classic Kameo Hotel, Ayutthaya, Thailand

Program :

13.00-13.30 hrs. Registration

13.30-13.35 hrs. Welcoming speech

By **Mr. Isara Burintramart**

Managing Director
Reed Tradex Co., Ltd.

13.35-14.05 hrs. Opening Speech and Special Presentation

“The Next Step of Thai Electronics Industry - Opportunities and Challenges for the Change of Technological and Industrial in Labor Sector”

By **Dr. Sampan Silapanad**

President
Electronic & Computer Employers’ Association (ECEA)
Vice President and General Manager
Hard Disk Drive Operations, Thailand
Western Digital Corporation Co., Ltd.

14.15-15.45 hrs. Panel Discussion

“Enabling Connectivity and Green Productivity for Electronics Manufacturing”

By **Dr. Nuttapon Nimmanphatcharin**

President
Digital Economy Promotion Agency (DEPA)

Dr. Panita Pongpaibool

Deputy Executive Director
National Electronics and Computer Technology Center (NECTEC)

Mr. Viwat Pantsra

Vice President, DENSO (Thailand) Co., Ltd.
Senior Advisor, DENSO International Asia Co., Ltd.

Mr. Wichiene Ngamsukasemsri

Managing Director
Mitsubishi Electric Factory Automation (Thailand) Co., Ltd.

Moderated by

Dr. Sampan Silapanad

President
Electronic & Computer Employers’ Association (ECEA)
Vice President and General Manager
Hard Disk Drive Operations, Thailand
Western Digital Corporation Co., Ltd.

15.45-16.00 hrs. Q & A
